

# TERRY HAWKINS

CERTIFIED SPEAKING PROFESSIONAL

## INTRODUCTION

For over 30 years Terry Hawkins (Certified Speaking Professional, Education Architect, and Custodian & Navigator of IGNITE-Worldwide) has designed, created and implemented powerful values and empathy based education systems for organizations, often achieving significant reductions in staff turnover, double digit increases in sales, and very intriguingly, reductions in staff theft.

To complement her talent in education design, she has also built an international reputation as a transformative and insightful speaker & facilitator - often quoted as being able to significantly shift an entire audience to action, from the CEO across to the frontline. She was inducted into the Hall of Fame as “Educator of the Year” for the National Speakers Association in Australia in 2010, and has also received numerous awards as an author, creating both an adult and children’s series. Terry relocated to the USA in 2010 with her 2 sons and 2 dogs.

Her presence and passion lights up a room, even virtually! Her intense commitment for igniting the learner within spans 3 decades, and has directly influenced hundreds of thousands of people. Indirectly - millions.

Let's give Terry a warm welcome!
